This Pub. Weekly story means that Lane has hooked up with Trumbo, Executive Action being the name of his movie also. I guess it explains Trumbo's silence. It does not explain Koch's. I asked him for those two Chron clips on this. The world-willed bright young have no capacity for learning from past errors in their own judgment or that of others, with but a single exception. Guess this makes them like their elders! I'd appreciate it if you would be alert to any further reporting on Executive Action. The concept may be old, but I fear another assault on the credibility of all. HW 3/31/73
